

Protecting Property Respecting Privacy

SITUCON'S EMERGENCY AWARENESS SYSTEM

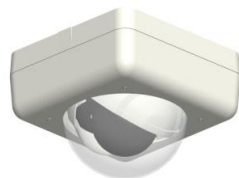

Designed To Go Where Video Surveillance Can't

Next Generation Protection

SITUCON lets you put cameras where they couldn't be placed before while still providing a comfortable and acceptable environment. As SITUCAM Privacy Protecting Cameras remain disabled, with "eye lids" closed, during normal everyday conditions, privacy concerns are no longer an issue. SITUCON'S PRIVACY PROTECTING TECHNOLOGY allows you to provide both privacy for individuals during the day and have complete property protection at night.

**Privacy Protecting
mode**

**Monitoring
mode**

**SITUCAM Privacy Protecting Cameras
Remain Closed and Activate
When The Premises Are Vacant**

Complete Property Protection, Including Privacy Sensitive Areas Such As:

- Schools

- Meeting Rooms

- Churches &
Temples

- Recreation Centers

- Libraries

- Offices

Protects Valuable Assets

With SITUCON expensive equipment such as computers, projectors and other electronics in currently unprotected privacy sensitive areas like classrooms and offices can now be protected greatly reducing costly losses due to theft and vandalism.

Real Time Loss Prevention

Not only do SITUCAM Privacy Protecting Cameras act as a deterrent and provide evidence of any unwanted activities occurring in privacy sensitive areas, they provide real time loss prevention as well. Without requiring any other equipment, motion can be detected and the appropriate parties immediately alerted.
