

Taking The First Step with *SITUCON*

SITUCON'S INITIAL DEPLOYMENT PACKAGE

Start Small Today Expand As Needed

First time users need only make a small commitment to realize the power and benefits of *SITUCON'S* Technology. With *SITUCON* you can start with a focused program which addresses your immediate needs and build out to include additional areas as needs increase and budgets allow.

"Initial Deployment" Package

SITUCON'S INITIAL DEPLOYMENT PACKAGE includes everything needed to provide the benefits of our *EMERGENCY AWARENESS SYSTEM* at a single site such as a town hall, recreation center or library. From hardware to software to installation, everything is included. As the First Responders' Dispatch Center monitoring workstation and software is also provided, expanding the system is as simple as adding additional on-site devices such as *SITUCAM* Privacy Protecting Cameras and wireless *INSTANT ALERT* buttons when and where required.

Available Within Today's Operating Budget

Through special leasing arrangements *SITUCON'S INITIAL DEPLOYMENT PACKAGE* can easily be funded within an operating budget thus avoiding delays related to the capital expenditure process.
